

Panda Global Protection 2014

Maximum protection
for all your devices!

How do you connect to the Internet?
PC? Mac? Tablet? Smartphone?

Whatever device you use, **Panda Global Protection 2014** keeps your data safe from all threats.

What does **Panda Global Protection 2014** offer?

Advanced protection against viruses and hackers = An impenetrable barrier.

Immediate protection against all types of known and unknown threats thanks to Panda's Cloud technology.

Password manager = Forget about having to memorize all of your passwords.

The password manager will allow you to store passwords, credit card numbers, and other sensitive online information securely. You just have to remember one secure master password to access your passwords and other confidential data.

Rescue kit = Your lifesaver.

Recover any computer should a virus prevent you from using it. You can also help anyone else with an infected computer by creating a rescue USB drive.

Parental Control = Protect your kids while giving them their own space.

Let your kids surf the Internet without inappropriate content. Let them enjoy the Web without being exposed to the risks.

Identity protection = Keep your personal and confidential information secure.

Confidential information filter that secures your personal information.

Optimization = Speed up your PC.

Improve your PC performance with the Tune-Up utilities.

Backup copies = Prevent accidental loss of data.

Safeguard and restore your most important files and prevent accidental data loss. Access your data from anywhere through Backup Online.
