Protect Your Family

Protect your Family against Internet threats with Panda Internet Security 2012.

Panda Internet Security 2012 is the security suite that lets you use the Internet for everything, like shopping and banking online, with total peace of mind and without interruptions.

It protects you from viruses, hackers, online fraud, identity theft and other known and unknown threats.

It also keeps your inbox spam-free, and allows you to surf the Web privately and securely with the new Panda Safe Browser. Your children will navigate safely on the Internet with the improved Parental Control.

Enjoy maximum protection against all kinds of Internet threats with Panda Internet Security 2012.

Maximum Protection
The Panda Cloud Technology offers a new protection model based on a user community where everyone contributes. Your computer will always be updated and protected. Additionally, your PC won't limit detection capabilities as Panda's huge virus detection database is located on the Internet (Cloud).

Minimum Impact
Panda Internet Security 2012 dramatically reduces resource consumptionas the malware database is in the cloud, not on your PC. Also, its lightweight protection minimizes performance impact.

Easy to use
Its intuitive interface is perfect for all types of users. Access all the information that you need with just one click.
