

Panda Internet Security 2016

# Protect your identity, money and family

Protection for all  
your devices

## Panda Internet Security 2016

# Panda Internet Security 2016

Protect your identity, money and family

## Maximum protection for all devices

Panda Internet Security protects your PC, Mac® and Android™ devices, plus your iPad, iPod and iPhone. Enjoy the best security software and browse, shop and play online with complete peace of mind.

## Secure your data

Control and safeguard access to your data, documents or any sensitive information. Our Internet security suite gives you peace of mind. The ultimate barrier against ransomware threats such as CryptoLocker.

## Internet security: Protect your Wi-Fi network from intruders

Panda Internet Security 2016 is designed to ensure you can enjoy your online life with complete peace of mind. It provides maximum antivirus and online fraud protection for your PC, plus firewall and Wi-Fi protection.

## Forget about backup copies... Until you need them

Say goodbye to the times when you desperately tried to recover those treasured holiday photos you had accidentally deleted.

Specify the files that you want to protect, and use your computer without the fear of losing valuable information.

## Protect your family with parental controls

Panda Internet Security 2016 protects your family from inappropriate content (pornography, drugs, weapons, etc.). Parental control gives your kids the freedom to use the Internet, at the same time flagging any behavior you feel is inappropriate.

### PROTECTING AND SIMPLIFYING YOUR LIFE

- Shop and browse online safely.
- Keep your family safe from inappropriate Web content.
- Protect your data, money and identity from cyber-criminals.
- Protect yourself anytime, anywhere.
- Protection for all your devices.
