## What does Panda Mobile Security offer?

**SECURITY:**

**Antivirus:** Protect your device against viruses, hackers, Trojans and any other threats.
**Protection against downloaded threats:** Scans installed apps and app updates without affecting performance.
**SD card scanning:** Automatically scans Secure Digital (SD) memory cards for potential threats.

**LIGHT FOOTPRINT:**

Optimizes performance and manages memory usage.
Analyzes in real time the activity of the apps installed on your Android™ device, and reports their size and CPU and memory usage, blocking them if necessary.

**PRIVACY AUDITOR:**

Manage your app settings and default permissions.
Checks and displays the access permissions of the apps installed on your Android™ device (access to contacts, bank accounts, photos, etc).

**ANTI-THEFT:**

**Remote locator:** Tracks and displays on a map your lost or stolen tablet or smartphone to help you find it quickly.
**Remote lock:** Instantly lock lost or stolen devices to prevent others from using them or accessing personal information, even if the SIM card is removed.
**Remote wipe:** Erase all data on the device, preventing access to all the information stored on it or on its SD memory card.

**MINIMUM SYSTEM REQUIREMENTS:**

OPERATING SYSTEM:
Android 2.3 or later

INTERNET CONNECTION
