Control and protection for Android™ devices

## Protect your device against any kind of threat

Keep malware away from your smartphone and tablet.

## Anti-theft alarm and alerts to protect stolen devices

Sound an alarm if someone picks up your device without your consent.

## Get a picture of the thief and useful location information

Get the picture and location of anyone trying to unlock your phone. Your device location will be captured when your battery is running low.

## Locate, lock and wipe your device remotely

Track your device's location on a map and safeguard your data by locking or wiping your device remotely.

## Improve performance and maximize battery life

Maximize battery life, control app usage and stop them if needed.

## Monitor the behavior of installed apps

The privacy auditor scans and displays the access permissions of installed apps.

---

## Technical requirements

Android™

Operating System: Android™ 2.3 or later.

Internet connection.
