

Panda Mobile Security

Maximum protection for your Android™ devices

Start enjoying maximum security in three simple steps. All you need is an Internet connection from your device.

1. Download and install

In your Internet browser, type the following Web address:
<http://go.pandasecurity.com/mobile-security/>
or scan this QR code and install Panda Mobile Security.

2. Activate your product

Enter the activation code that you will find on the card that accompanies this guide.

3. Create your Panda account

Create your Panda account from your device. This account will let you manage all your services, plus:

- Locate, lock and wipe your device if it's lost or stolen.
- Access technical support and contact Panda Security technical experts.

Need more information?

Go to this page and find answers to any questions you may have about how to install and activate your product.
