

END USER LICENSE AGREEMENT – CORPORATE SOLUTIONS V.4.04

Please read the following license agreement carefully before using this program. By accepting the agreement, you are agreeing to become the licensee and expressing your complete acceptance of all the terms and conditions of this license agreement. If you do not accept the terms of the agreement, do not install the program. Similarly, use of the program implies your acceptance to be bound by the terms and conditions of this license agreement.

This license agreement represents the entire agreement between the licensee and PANDA SECURITY S.L. (hereinafter PANDA). This license agreement supersedes any prior license agreements between the licensee and PANDA with respect to this product or the product it replaces. Similarly, and where permissible under applicable legislation, the terms and conditions of the present license agreement shall take precedence over any communication or advertising material in the event that such material contradicts any of said terms and conditions or where such material predates this license agreement.

The acceptance of the terms and conditions of this agreement does not confer any rights of ownership over the programs or products belonging to PANDA or its software suppliers.

1.- LICENSE GRANT.- PANDA grants the licensee the non-exclusive and non-transferable right to use the program during the period contracted, after which, he/she must remove it from the computer memory and cease to use the program.

In the case of subscription versions, if the monthly or periodic subscription fees are not paid, or when the subscription period has expired, the licensee will lose the rights granted by the present license agreement as well as the rights to access the services associated with the program

In the case of evaluation versions, the licensee may only use this version for the period indicated by PANDA. Written permission must be granted by PANDA in order to extend this period. Clause Six of this agreement does not apply to evaluation versions.

This license agreement grants the licensee the right to use the program in as many computers as licenses bought.

In network environments, a license must be acquired for each server to be protected by the product. In addition to this, as many licenses must be acquired as the higher of the following two values: the maximum number of computers connected to the server (including laptop computers and other PCs that may connect sporadically to the network) or the maximum number of users connected to the protected servers. Also, a license must be acquired for each virtual machine the product is installed on. The total number of licenses acquired must not exceed the number of licenses specified in the License Certificate of this product (where provided).

In the case of computers not connected to a network, licenses must be acquired for each computer on which the licensee is to install the program. The number of computers with

the program installed must not exceed the number of licenses specified in the License Certificate of this program (where provided).

In both the above cases, the license is only applicable to the program specified in the License Certificate (if the program includes this certificate).

Similarly, PANDA grants the licensee the non-exclusive and non-transferable right to use the Panda MalwareRadar audit service for the contracted period or as otherwise contracted. The text with Conditions of Use of the Service, is available at <https://private.malwareradar.com/ManConsole/License/2/Comercial.txt>

Should the licensee use the Service, the corresponding terms of the Conditions of Use will apply in addition to those laid out in the present agreement

2.- INTELLECTUAL PROPERTY.- This program, as well as any corresponding documentation or information, is the exclusive property of Panda and/or its suppliers of software. Panda or its suppliers of software own all intellectual property rights and copyrights pertaining to the programs, documentation or any other product given to the licensee as part of this agreement. With regard to GNU GPL (GNU General Public License) software or other types of free software, the corresponding License Agreements will apply.

The program is protected by copyright laws, patents and international copyright treaties, in addition to the dispositions of laws and treaties applicable to the protection of intellectual property rights.

PANDA authorizes the use of its products in comparative reviews provided that these are objective and carried out in good faith and in accordance with accepted or customary industry practices. These reviews may only be carried out using the latest versions of the products concerned.

3.- BACKUP COPY. This license agreement authorizes the creation of only one backup copy of the contents of the CD-ROM or files downloaded from the Internet, provided that such copy contains all software property rights notices.

4.- MODIFICATIONS TO PRODUCTS AND SERVICES.- The licensee acknowledges and accepts that during the contracted period and in order that PANDA products adapt to technological advances and improve accordingly, PANDA may cease to develop the product contracted by the licensee in favor of others. In such circumstances, the licensee may choose another product in accordance with PANDA's product migration policy. In this event, the licensee agrees to accept the conditions of such policy and adapt his/or computer accordingly should it be necessary. Migration to the new product may or not be free of charge depending on the resources that PANDA has dedicated to the research and development of the new products and the extent to which the products differ.

The licensee also accepts that during the contracted period, PANDA may change or modify the services in order to adapt to the aforementioned technological advances.

The licensee agrees to accept these changes without demanding any compensation whatsoever. PANDA will notify the licensee of any such changes. The licensee may at any time access information relating to the lifecycle of PANDA products and solutions through the following link: <http://www.pandasecurity.com/enterprise/support/lifecycle/>

Likewise, when the contracted period has elapsed, in cases of product and service renewal, the licensee is aware that the services and characteristics of the program may have been modified to adapt to technological advances and that therefore he/she would have to change to a new product or version according to the policy established by PANDA.

If the licensee changes to a new version or new PANDA product to update a previous PANDA product version, the updated version or product is the only one the licensee has the right to use, accepting exclusively the terms and conditions applicable to all documentation, material and specifications corresponding to the new version or product. The licensee is obliged in such cases to delete any material corresponding to the previous version.

By accepting this license agreement, the licensee accepts all such modifications to the services and characteristics of the program. Please check all such modifications before accepting this license agreement.

The licensee accepts that PANDA may provide automatically downloaded updates or other additions to the software.

5.- DATA COLLECTION AND PROCESSING.- PANDA informs the licensee that in certain products it may use data collection technology to collect technical information to improve the products and the user experience, to provide associated services, to adapt them to user preferences and to prevent the unlicensed or illegal use of the product. The licensee accepts that PANDA may use such information for statistical purposes or as part of the services provided in relation to the product, and that he/she may receive marketing information. The licensee acknowledges and accepts that PANDA may provide updates or additions to the software which automatically download to his/her computer.

This last requisite will not apply where the program was supplied via the Internet.
- B) PANDA guarantees that the licensed program will fulfil its principal designed purposes and commits itself to solve the problems that affect its performance to this effect, with the means and in the time PANDA considers appropriate in accordance with its own criteria. The program is provided as is, and no claims will be accepted concerning failure to fulfill presumed functions. PANDA does not guarantee that the program is error free, nor that it will function without interruption. The licensee knows and accepts, under his/her own responsibility, that due to the modifications that malware causes in the files it infects, it is possible that the disinfection process could produce unforeseen changes to these files or delete them.

The licensee is responsible for the use of the program by others. The licensee accepts responsibility for any losses and/or damages and costs arising from any incompatibility between this program or updates thereof and any third-party software that the licensee has installed on his/her computer as well as any other problems that may arise due to the interaction between both programs, or for code strings that coincide.

Under no circumstances will PANDA be liable for damages greater than the fee paid by the licensee for the program, regardless of whether the licensee has informed PANDA of the possibility of such damages.

The validity of the guarantees and liabilities established herein is subordinate to the legislation applicable in the corresponding state or jurisdiction.

death, personal injury or severe damage to property or the environment. PANDA specifically disclaims any express or implicit guarantee of the program's suitability for these types of activities.

9- EXPORT RESTRICTIONS.- The licensee acknowledges and accepts that the program or any part thereof is subject to U.S. export control laws and hence the licensee is bound to abide by such legislation and any other applicable international export regulations.

The licensee acknowledges and accepts that the program may not be exported or re-exported, either wholly or in part, to any country, person or organization subject to restrictions under U.S. export control laws or any other applicable international export regulations, unless the licensee is in possession of the corresponding valid export licenses.

The licensee shall defend, indemnify and hold PANDA harmless in the event of any claim resulting from the licensee's failure to comply with export regulation.

The licensee knows and accepts that PANDA may take legal proceedings should the licensee not adhere to this agreement. PANDA reserves the right to terminate the present license agreement automatically without prior notice should the licensee fail to comply with any of the terms and conditions of the present agreement.

If any provision in this agreement is against the law, that provision will be considered void, without affecting the totality of the agreement or implying that the agreement is void.

PANDA expressly reserves all other rights it may have and that are not herein granted to the licensee.
